

# My Saving Plan

Name \_\_\_\_\_

I want to save for \_\_\_\_\_.

The price is \$\_\_\_\_\_.

I have \_\_\_\_\_ (days, weeks, months or years) to save.

**=** **X**

TOTAL PRICE

amount of  
deposits  
(Deposit Dollars)

amount of  
each deposit  
(\$ amount)

( ) = ( ) X ( )

To achieve my goal I should save \$ \_\_\_\_\_ for  
\_\_\_\_\_ (days, weeks, months or years).

Now I have a saving plan.
